

HVE-3DGFX

DELIVERING HIGH PERFORMANCE VIRTUAL DESKTOPS AND APPLICATIONS

A Premier VDI Solution that Truly Executes!

Introducing the HVE-3DGFX: a leading-edge VDI appliance designed specifically for high-performance applications. HVE has engineered a VDI server using the latest cutting-edge hardware and software technologies to provide an appliance that can handle from 8-128 high-demand users in a single 2U appliance. This purpose-built solution provides all users a virtual desktop with the graphics quality of high-end workstations at an affordable cost.

Engineered for Applications Like:

The 3DGFX was designed and engineered as a purpose-built solution based upon the MSRP engineering approach (Manageable, Scalable, Reproducible, and Predictable). VDI is the next generation of workflow efficiency and productivity, so the 3DGFX was designed for the high-demand applications and power-users.

- ✓ Up to (2) NVIDIA Tesla M10 or M60 graphics boards
- ✓ Teradici PCoIP offload card for WAN optimization
- ✓ All Flash Storage for Converged or Hyper-converged options
- ✓ 512GB - 2TB RAM Options @ 2400MHz DDR4
- ✓ Dual Intel Xeon E5 v4 Series Processors
- ✓ Dual 10BaseT included, 10/40G SFP/QSFP optional
